

Stan E. Tizer, M.D. (Medical Ducky)

Inspired by the concepts of health and wellness, Stan E. Tizer, M.D. (Medical Ducky) is the Arylessence entry for the ACI 2021 Virtual Summit Duck Fashion Show.

Creatively decorated with a Doctor of Medicine theme, Stan E. Tizer, M.D. is a tribute to essential healthcare workers. We are very thankful to the heroes without cape such as doctors, nurses, physician assistants, and laboratory technicians who play a vital role in delivering care and services to those in need. Our communities, our country, and the world are better and happier because of them.

Stan E. Tizer, M.D. also represents the invaluable contributions of the cleaning and fragrance industries to public health, especially during challenging times.

At Arylessence, we create extraordinary fragrances for essential products such as hand gel, disinfecting wipes, soap, and hard surface cleaners, just to name a few. Our fragrances facilitate, enhance, and promote the use of these products. We are working around the clock to ensure that the increased needs for sanitizing and wellness applications are also met with an amazing sensory experience.

Stan E. Tizer, M.D. is friendly, knowledgeable, and effective. His hand-painted design features classic medical elements such as a white coat, the caduceus symbol, and a stethoscope. His creative design also represents sanitizing products, fragrance botanicals, medicaments, scientific research, as well as the heart that the medical, cleaning, and fragrance industries put into the work we proudly do.

Stan E. Tizer, M.D. is ready for the “People’s Choice” competition. His siblings (Hope, Galileo, Dr. Green, Brave, and Rosie) are rooting for him. They competed in 2016, 2017, 2018, 2019, and 2020, respectively.

Join us on Stan E. Tizer, M.D.’s fascinating journey during the ACI Virtual Summit Duck Fashion Show.

Go Dr. Tizer! 😊
