**KEY ISSUES**

Chemical Management  ·  Ensuring the regulations on cleaning product chemicals are guided by the best available science that assesses their safety and effectiveness.

Ingredient Communication  ·  Working toward a national ingredient communication standard that gives consumers consistent, understandable ingredient information.

Product Packaging  ·  Supporting policies that create more sustainable packaging through innovation and collaboration.

Sustainability  ·  Working proactively on sustainability goals that are rooted in increasing transparency, reducing emissions, valuing nature and contributing positively to our shared global future.
