

HEALTHY SCHOOLS HEALTHY PEOPLE

COMMIT TO CLEAN: Faculty Guidance

We're all responsible, as staff and faculty, to maintain a clean, healthy, and safe environment for students, colleagues, and the school community at large. Help keep our school clean to minimize the spread of germs throughout the day. **We're all in this together!**

Set the Example

- ✓ **Wash your hands with soap and water for at least 20 seconds at key times** during the day, like before eating and after using the bathroom, and encourage others to do the same!
- ✓ **Keep hand sanitizer with at least 60% alcohol handy** in the classroom when schedules prohibit a bathroom trip. Supervise its use by younger students.
- ✓ **Stay home if you are feeling sick.**

Keep Our Space Clean

- ✓ **Clean frequently touched surfaces** and objects within your workspace at least daily.
- ✓ **Help remind students to stay vigilant about handwashing**, especially at key times like after going to the restroom and before lunch.
- ✓ **Remove items from common areas** that are unnecessary or difficult to clean and disinfect.
- ✓ **Discourage sharing items** to reduce contact from multiple people.
- ✓ **Close off areas used by a sick person** and don't use until they have been cleaned. If someone was sick in the space in the last 24 hours, clean then disinfect with an EPA-registered disinfectant*.

Be Safe

- ✓ **Open doors and windows** to ensure adequate ventilation while cleaning and disinfecting.
- ✓ **Never mix cleaning and disinfecting products.**
- ✓ **Always follow the directions** on the label of cleaning and disinfecting products.
- ✓ **Wear protective gear**, such as gloves and eye protection, as recommended on the product label.
- ✓ **Store and use cleaning and disinfecting products** out of reach of children.
