HEALTHY SCHOOLS
HEALTHY PEOPLE

COMMIT TO CLEAN: Faculty Guidance
We're all responsible, as staff and faculty, to maintain a clean, healthy, and safe environment for students, colleagues, and the school community at large. Help keep our school clean to minimize the spread of germs throughout the day. **We're all in this together!**

### Set the Example
- ✔️ Wash your hands with soap and water for at least 20 seconds at key times during the day, like before eating and after using the bathroom, and encourage others to do the same!
- ✔️ Keep hand sanitizer with at least 60% alcohol handy in the classroom when schedules prohibit a bathroom trip. Supervise its use by younger students.
- ✔️ Stay home if you are feeling sick.

### Keep Our Space Clean
- ✔️ Clean frequently touched surfaces and objects within your workspace at least daily.
- ✔️ Help remind students to stay vigilant about handwashing, especially at key times like after going to the restroom and before lunch.
- ✔️ Remove items from common areas that are unnecessary or difficult to clean and disinfect.
- ✔️ Discourage sharing items to reduce contact from multiple people.
- ✔️ Close off areas used by a sick person and don’t use until they have been cleaned. If someone was sick in the space in the last 24 hours, clean then disinfect with an EPA-registered disinfectant*

### Be Safe
- ✔️ Open doors and windows to ensure adequate ventilation while cleaning and disinfecting.
- ✔️ Never mix cleaning and disinfecting products.
- ✔️ Always follow the directions on the label of cleaning and disinfecting products.
- ✔️ Wear protective gear, such as gloves and eye protection, as recommended on the product label.
- ✔️ Store and use cleaning and disinfecting products out of reach of children.
